THE CLIENT SAID...

Mercy Imaging Center Roseville Roseville, CA

DELIVERY METHOD: Design Build

COMPLETION DATE: 2003 August

A 7,900-square-foot remodel of an imaging center for the Sacramento Radiology Group. Installed a mammography, x-ray, MRI, CT, and an ultrasound. Provided new lead shielding. Framed entire suite to create reception, restrooms, exam rooms, and ancillary support spaces—all with high-end finishes. Project included ADA features in the restroom and throughout the building. Added new HVAC to properly condition the building and cool the equipment. Electrical work included lighting, conduit and wiring, data connections, fire alarm, and power to HVAC units. Furnished and installed fire sprinkler system.

Highlights

- Centrally located in the heart of Roseville, the delivery of this project provides comprehensive diagnostic imaging to residents of Placer County.
